Summary

Computer Science graduate with professional experience as a full-stack developer, building and maintaining production applications. Strong in Python, JavaScript, and SQL, with a focus on backend systems, APIs, and database design. Proven ability to deliver reliable solutions and contribute effectively in team based development environments.

Technical Skills

Languages: Python, Java, C, C#, JavaScript, SQL

Tools & Frameworks: Git, GitHub, REST APIs, TensorFlow (Keras), Android Studio

Databases: MySQL, SQLite, SQL Server

Concepts: Data Structures, Algorithms, OOP, Unit Testing, Agile/Scrum

Experience

Full-Stack Developer - Network for Applied Technology

October 2025 - Present

- Developed and maintained full-stack applications in a production environment using Python, JavaScript, and SQL
- Translated business requirements into scalable technical solutions across frontend and backend systems
- Improved application performance and reliability through debugging, optimization, and feature enhancements
- Designed and optimized database solutions to ensure data integrity and efficient query performance

Software Developer Intern - MacEwan University

January 2024 - April 2024

- Developed a C# application to streamline essay marking workflows, improving efficiency for faculty
- Designed SQL Server backend using stored procedures, transactions, and optimized queries
- Collaborated with non technical stakeholders to gather requirements and deliver user focused solutions

Projects

AI Fitness App

- Built Android frontend (Java) and Python backend using TensorFlow for real time pose analysis
- Implemented computer vision model to analyze workouts and provide feedback to users

Property Finder Application

- Developed Java application integrating REST APIs to display real time property data
- Applied object oriented design and clean architecture principles

UNIX Shell

- Implemented command parsing, process control, piping, and redirection
- Gained hands on experience with low level system operations

Portfolio Website

- Built responsive website using HTML and CSS to showcase projects and technical experience
- Deployed using GitHub Pages with a focus on clean design and usability

Education

MacEwan University - Bachelor of Science

Graduation Date: April 2024

Major: Computer Science

Minor: Classics

Additional Experience

Shift Supervisor - Starbucks

January 2025 - April 2026

- Led team operations and ensured efficient service during high volume shifts
- Trained staff and resolved customer issues in fast paced environments

Barista - Starbucks

July 2023 - December 2024

- Provided friendly and efficient customer service in a high volume setting
- Supported team operations and maintained store standards during busy shifts
